

Bringing play to life since 1979

We use a strengths-based approach to nurture and nourish vulnerable & disadvantaged children & empower families to make long term change

Who we are & what we do

Bath Area Play Project are a small registered charity run by voluntary Trustees who strive to provide a range of services with play at the heart, enabling thousands of children across B&NES to have access to quality play opportunities in their own community.

We have developed services in disadvantaged areas with vulnerable Families & children

We use a person-centred preventative approach- empowering parents & children through respectful & Non-judgemental support. Early intervention to avoid reaching crisis point

Providing trained staff to support children's play & family relationships

Our person-centred support enables families to build relationships, explore emotional connection and process trauma

Our Theory of Change is working in partnership, improving outcomes to enable families to thrive through play

The difference your support has made:

- * Enabled children to experience new play opportunities & improved attachment with parents
- * Supported children & parents/carers to gain the capacity to maintain and manage positive relationships
- * Enabled children & parents/carers to access activities/support that increased their resilience and sense of belonging within their community

The Peasedown
Playday took place in
the Space themed
week this summer;
children used their
imaginations to build
space craft, and a
whole space themed
space inside.

Quotes from parents:

- It has all been so amazing; we need more of these days here
- There are so many ideas that we can take away and do these things at home. It has been so supportive.
- The kids have had the best day ever, not sure how I will ever get them to leave. They don't usually enjoy making things but the size and team has made them feel welcome.

Partnership

We brought in various partners, enabling children to have a wider range of experiences including:

- Football and sport coaches from Bath City FC Foundation
- Live Well team from HCRG, providing healthy eating support
- The Mobile Library Service
- A giant inflatable slide from local company Bouncers

Sustainability

- Without the continued support from Parish and Town Councils, BAPP would not be able to deliver playdays across NES. Whilst we are commissioned to provide targeted and early help services, these do not include open-access, community based play provision.

A HUGE thank you from everyone at BAPP
